TWO-FACTOR AUTHENTICATION

Protect your Discord account with an extra layer of security. Once configured, you'll be required to enter both and an authentication code from your mobile phone in order to sign in.

Enable Two-Factor Auth
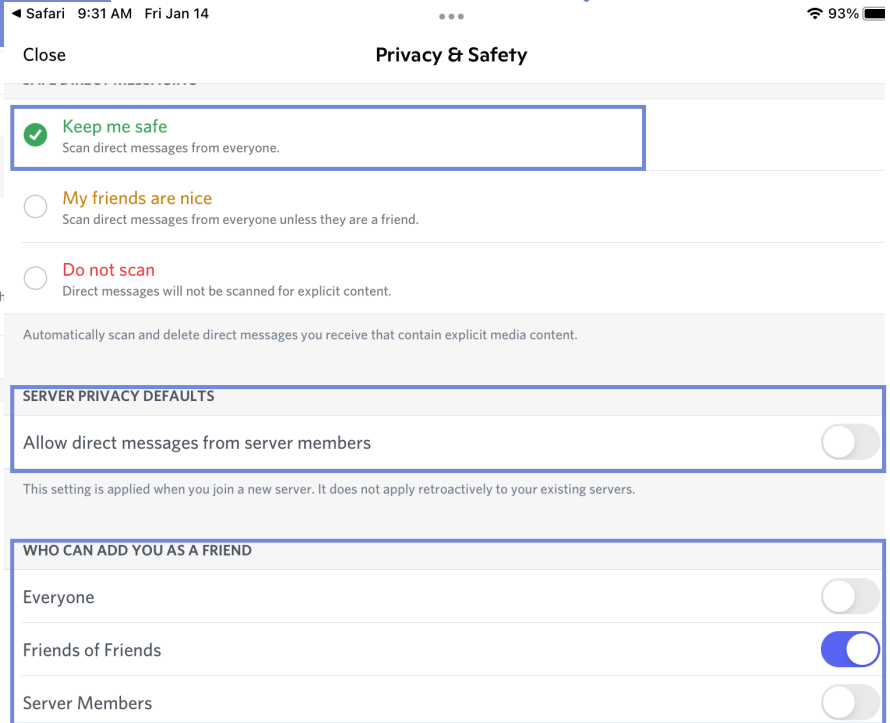

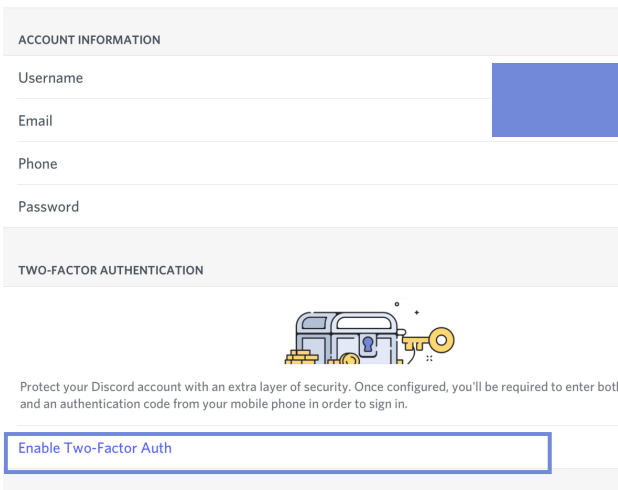

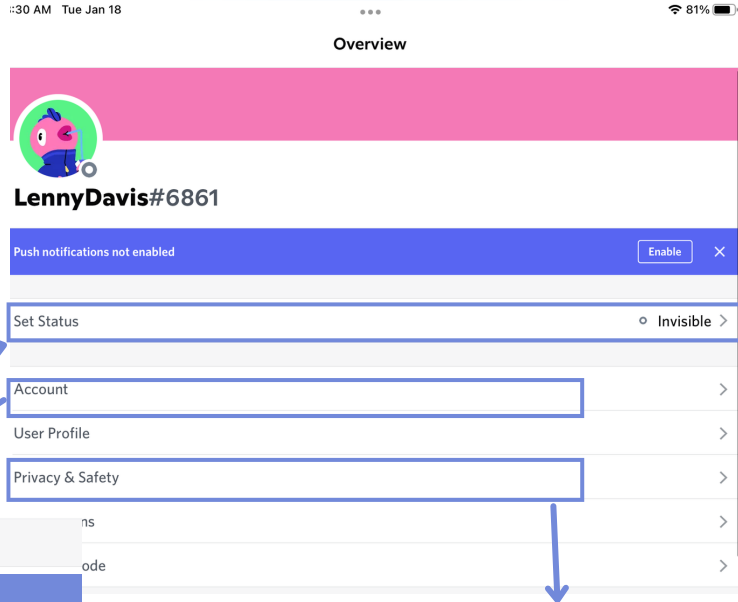

Discord is a free voice, video, and text chat app that's used by tens of millions of people ages 13+ to talk and hang out with their communities and friends

SAFE DIRECT MESSAGING

✓ **Keep me safe**
  Scan direct messages from everyone.

○ **My friends are nice**
  Scan direct messages from everyone unless they are a friend.

○ **Do not scan**
  Direct messages will not be scanned for explicit content.

Automatically scan and delete direct messages you receive that contain explicit media content.

SERVER PRIVACY DEFAULTS

Allow direct messages from server members   ⬜

This setting is applied when you join a new server. It does not apply retroactively to your existing servers.

WHO CAN ADD YOU AS A FRIEND

Permanently Delete Account

Twitch is a video-streaming platform that allows anyone to watch people play video games.

- **When securing your account you will want to change your preference status to invisible.**
- **Second make sure you verify your email**
- **Thirdly, setup Two-factor authentication for another security measurement.**

About Meetup

Meetup is a service used to organize online groups that host in-person and virtual events for people with similar interests.

About Tinder

Tinder is an online dating and networking application. Users swipe right to like or swipe left to dislike other users' profiles, which include information about the user.

Unfortunately, Meetup and Tinder do not have any account safety/security measurements in place with their application.
