**PROFILE SETTINGS**

To edit your profile: Tap your profile picture, then select Profile.

- **DO NOT** use a face photo.
- Use a general location such as country or metropolitan area.
- Use nicknames, initials, or pseudonyms.
- Change your Twitter username periodically to limit account exposure.

**EFFECTIVE ON:** 03/18/2020
**Secure Your Account**

- **Login and Security**
  - Do NOT add a mobile number.
  - Two-factor authentication: Protect your account from unauthorized access requiring a secondary authentication method to your Twitter password. You can choose a phone, authentication app, or security key. Learn more.

- **Apps and Sessions**
  - Revoke access from any apps and frequently check connected devices for unauthorized devices.
  - Log out of any active sessions connected from a device that you have not logged in from.

- **Deactivate Your Account**
  - Deactivate your account if no longer used.
  - Deactivate your Twitter account. Your display name, bio, and public profile will no longer be visible on Twitter.com, Twitter for iOS, or Twitter for Android.
  - This will deactivate your account:
    - You’ve about to start the process of deactivating your Twitter account. Your display name, bio, and public profile will no longer be visible on Twitter.com, Twitter for iOS, or Twitter for Android.

- **Your Twitter data**
  - Additional password protection: Enable two-factor authentication using one of the methods.
  - Enable password reset protection.

**Apps and Sessions**

- You don’t have any connected apps.

- **Sessions**
  - Log out all other sessions.

- **Mac**
  - Houston, TX – 4 days ago
  - St. Louis, MO – 18 hours ago
  - Mac – 6 hours ago
  - Log in

- **iOS**
  - Cold Spring, MN – 1 day ago
  - Log in

**Deactivate Your Account**

- This will deactivate your account:
  - You’ve about to start the process of deactivating your Twitter account. Your display name, bio, and public profile will no longer be visible on Twitter.com, Twitter for iOS, or Twitter for Android.

- What else you should know:
  - You can restore your Twitter account if it was accidentally or wrongly deactivated for up to 30 days after deactivation.
  - Some account information may still be available in search engines, such as Google or Bing. Learn more.

- To use your current display name or email address with a different Twitter account, change them before you deactivate this account.

- If you want to download your Twitter data:
  - Need to complete both the request and process before deactivating your account.
**Settings and Privacy**

1. Turn off to not allow others to see your connection to Periscope.
2. Check to make your tweets available to only those you approve.
3. Uncheck to not be found by email or phone number.
4. Set to off to not allow anyone to tag you in photos.
5. Uncheck both options to not receive direct messages or send read receipts.

**Privacy and Safety**

- [Privacy and safety](#)
  - Tweets:
